Dated, Honolulu, T. H., October 12, 1912.
ALFRED L. CASTLE,
Secretary, Honolulu Lava Brick Company, Limited.
5365—Oct 12, 1912

COLLEGE OF HAWAII STUDENTS PLAN ACTIVITIES FOR THE YEAR

Glee Club to Be Organized. Athletics Will Prosper This Year

A meeting of the Associated Student Body of the College of Hawaii was held yesterday at that college for the purpose of discussing several questions of importance to the students. The meeting was called to order at 12 m. by Edward Tracy, president of the Student Body.

The first question taken up was in regard to the construction of college tennis courts to be built at the students' expense. The question was seconded and passed and the naming of a committee was left to the president.

The committee is to look into the matter of giving a play, all the proceeds of which will go to the construction of the tennis courts.

The second question was that of a college glee club. The College of Hawaii has recognized the fact that, as a college, it should have college organizations, one of the most important of which is the glee club. This was passed unanimously, and a committee will be appointed by Mr. Tracy for the purpose of canvassing members and making other arrangements necessary.

The next question was in regard to holding college picnics, and this matter was also referred to a committee to be appointed by Mr. Tracy.

The fourth and last question was that of choosing a college pin. This was another matter which the students consider very important. The question was passed without a dissenting vote and the appointing of a committee to choose a suitable design was left to the president.

Mr. Tracy is to appoint all committees and the names will be posted at the college on Monday.

Athletics are beginning to take hold on the college and money will be supplied from certain college funds.

for the construction of an athletic field.

The college expects to put out a fine track team in the spring, and is already preparing for it. The students were greatly disappointed when they found they could not put out a football team this year and for a recompense they intend to make good on the track.

The reason the college will not have a team this year is on account of lack of material. If they had organized a football team they would have had to use outside material and this would have raised no end of complications, so they gave up the idea, though not without a great deal of reluctance.

The College of Hawaii has become a very important institution here. It is rapidly growing, both in attendance and favor. Ten new students registered in the Freshman class this year. This makes a total attendance of nearly one hundred students this year.

Professor Gilmore, president of the College of Hawaii, has left on a trip to the Coast. This is his first vacation in several years.

Professor Donaghio is taking Professor Gilmore's place during the latter's absence.

NEWCOMERS' CLUB TO MEET

The Newcomers' Club will hold its regular Sunday afternoon meeting tomorrow at the Y. M. C. A. beginning at four o'clock. Anderson's orchestra will give a musical program in the lobby and following this the members of the club will adjourn to Cooke hall where the regular discussion will take place under the leadership of E. I. Towse. The subject of the discussion will be "The Principles of Jesus."

At five-thirty the fellowship supper in the cafeteria will be held and all those who care to remain for it are invited to do so.

IF DECISION IS FOUND TO HIT LAND OF GOVT.

Now the heirs of the estate of the late Judge H. are going to have a scrap with the government. Besides the Punahou land sold by the guardian of Irene H., a minor in 1879 without legal title, according to the Dole decision, as mentioned Thursday, practically all the rest of Makiki valley was bought by the government.

The block in which the Pleasanton Hotel and other rest and recreation properties mentioned yesterday are situated, besides others not mentioned in that report, was section 2 of the original H. tract. Section 1 of the same land commission award was bought by the government for water purposes. Not being all required for the water department, the land has been in part sold for residence sites. Several lots were thus disposed of quite recently.

And now the government is up to its neck in the mess caused by Judge Dole after all these years. The whole bed of Makiki valley is in fact involved, being an area of 174 acres of land.

FOUR LIBRARY TRUSTEES APPOINTED BY GOVERNOR

The Governor today appointed the four members of the board of trustees of the Library of Hawaii whose nominations were made several days ago. They are C. H. Atherton, H. A. Lewis, J. H. Fisher and P. L. Weaver. This completes the board, which probably will now be made self-perpetuating.

No wireless message has been received from the Oceanic liner Sierra up to noon hour today. The Sierra is en route from San Francisco with one hundred and fifteen cabin passengers for Honolulu. The vessel should reach her berth early Monday morning.

IS NOT READY YET TO TACKLE LEGISLATION

Governor Frear's Hands Full of Pressing Public Questions Now

Busied with a huge mass of affairs requiring early attention, which piled up while he was occupied with the Fisher investigation, Governor Frear probably will not undertake any legislative matters for some time to come. These last-mentioned affairs have attained formidable size, in piles of documents that must be perused for general and detailed information on innumerable subjects, before the coming Legislature begins its sessions.

Such questions as the probable renewal of the Rapid Transit Co.'s request for a new franchise, the separation of the city and county government from the Territorial, and proposals for new public improvements and commissions, will not be considered by the Executive at the present time, nor discussed.

A large portion of his time just now is taken with the division of the new loan fund among the present commissions and improvement projects, with which the Governor is having his share of trouble because practically every project is demanding sums in excess of the amounts originally asked, and compromises must be effected which will enable him to stretch the fund so that all may get a share.

Having just completed the details of the Waialae water license, which is to be sold at public auction November 16, at high noon on the steps of the Government building, Governor Frear next Monday will take up the problem of the Kauai water license, a matter of equal importance to the one just settled. This new one cannot be decided quickly and he says it may be some time before it will be in proper shape to present to the board of land commissioners for final adjudication.

And then, of course, come the appointments, chief of which is that of the Superintendent of Public Works. The Governor declines to give publicly any intimation of his decision on this matter, while the name of a new "possibility" for the vacancy in the department is heard on the streets almost every day. It is understood that recommendations for something like a score of men have been handed the Executive, leaving the inference that some rumor in each instance has its source with the personal friends of each candidate and that its appearance on the street follows the filing of the recommendations with the Governor.

LIQUOR DEALER LOSES LICENSE

Despite the proprietor's protest and voluble explanations of his own Sabbath-day generosity in dispensing beer gratis to all comers at his store at Waianae, the liquor license commission yesterday afternoon decided to withdraw the license of Yamasaki, who conducts a saloon in one building and a merchandise store in another structure at that town. The license is suspended until the first of the new year.

Inspector Fennell produced witnesses who testified that they had been able to purchase beer in quantities at Yamasaki's store on Sunday. The proprietor produced a number of witnesses who testified they had received much liquor from him on the Sabbath, but had taken it as a gift. One of these was Former Deputy Sheriff Chris Hall, who served in an official capacity about six years ago. He said he had never paid for beer obtained at the Japanese store on Sunday, and had seen many others drinking there, apparently without paying for the privilege. He could not swear they did not pay for it eventually, however.

Sukinora, Yamasaki's store employee, sought to explain away the incident of last August, when Inspector Fennell arrested him and his employer after a special officer had purchased and paid for brandy one Sunday at the store. A local bartender testified before the commission that he frequently had bought liquor at the store on Sunday's.

Y. W. C. A. PLANS SOME CHANGES IN CONSTITUTION

A change in the constitution of the Young Women's Christian Association which has been recommended will be submitted to the organization at a meeting of the members which is to be held next Tuesday evening, October 22. The general opinion of the members as to the adoption of this constitution is solicited, as it will be more in keeping with that of the national board. At the annual meeting of the association on October 25, the adoption will be voted on.

The regular Sunday vesper service will be held at the Homestead tomorrow afternoon, led by general secretary Miss Esther Erickson. Mrs. Dean Rockwell Wickes, who is in the city en route to China as a missionary, accompanied by her husband, will attend the meeting and will give a talk upon the subject "Woman's Place in Social Service." And Miss Esther Anderson, for several years national secretary of the Y. W. C. A., who is on her way to the coast from Australia where she has been connected with

BENJAMIN CLOTHES

The Grace and Good Form of "BENJAMIN CLOTHES" will impress you at a glance, but it takes wear to demonstrate their real worth.

"BENJAMIN CLOTHES" owe their surpassing and exquisite finish to the fact that they are made by the highest talented designers and tailors, and in their own properly equipped work rooms.

association work, will also speak. Tea will be served after the service and all young women are invited to be present whether a member of the association or not.

MORE NEWS ON HAWAII RUBBER

An article on the Rubber Exposition, illustrated with cartoons, appears in the New York Telegram of September 25 under the authorship of Janet Barry. In a somewhat satirical reference to "British lions" at the show, the writer says:

"These Englishmen of business are all so awfully polite that you can't decide whether you are at an afternoon tea or an industrial exhibit until you come to the South and Central American sections or those of our own province of Hawaii. Here there is a vivacity and a sparkle that comes as a glass of champagne after a cool glass of water. All the restless representatives of the tropics want you to put your names in their guest books, and when you leave it is much after the manner of a princess who has conferred a great favor upon her devoted slaves. These men of the Southern part of our hemisphere are fairly fervorizing with enthusiasm. They wear the colors of their country in their coat lapels and they are patriots with the zeal and verve of a born American, whether he be from the North country, the South country or merely a colony."

The Automobile of September 19 devotes much space to the exhibition. Following are extracts from it:

"The Brazilian show occupies nearly half of the floor. Malaya, Ceylon, Hawaii and a score of other producing sections are represented with magnificent exhibits."

"Dr. Walter Strong, president over the Hawaiian and Philippine exhibits. Rubber cultivation in Hawaii is of recent date, but it is said that conditions are ideal for it in a considerable territory of the archipelago. The trees planted in Hawaii are of Brazilian stock and the crude rubber exhibited is similar in structure to the specimens shown from Malaya and Ceylon. The form of the product is different, as the crepe is pressed into bale-like packages. Experiments are being made in Hawaii with the castilloa tree. It is estimated that several thousand acres could be devoted to rubber culture in the Hawaiian

archipelago. The climate of both of the Pacific island territories of the United States is suitable for rubber culture, but so far the results attained are merely promises for future performances. In Hawaii this progress has been swifter than it has in the Philippines."

CHINESE TENDER BANQUET TO COLLEGE GRADUATES

A banquet, tendered to four of their former colleagues who have recently received their diplomas from colleges on the mainland, was held last night at a Chinatown restaurant by thirty of the most prominent Chinese clerks and young business men of the city. The banquet was the windup of a long list of entertainments given during the past month since the return of the graduates. The affair was under the management of To Tom Aoy, and it was a jolly crowd that turned out to show their admiration for their former schoolmates.

The college men gave several interesting talks, dwelling largely on the future of the new Republic of China. A. H. Chuck, of Cornell, and Hong Yeu Ching, who leave on the Persia today for China to cast their lot with the others who are working for the upbuilding of that nation, spoke briefly, but to the point.

Two other talks of special interest to those present were those given by Charles A. Wong, of Harvard, and Kim Tong Ho, of Wisconsin. They spoke upon the problems of the Chinese, and it was heard that they bitterly remarked about the notorious element of their countrymen. If these remarks accredited them are true, it is hoped that they will be given support to bring about a higher moral standard.

Four men indicted by the recent federal grand jury and who pleaded guilty to the charges against them were sentenced by U. S. District Judge Clements this morning. Hung Tai Chung, for perjury before the grand jury, was fined \$750 and costs and sentenced to one day in prison; Thomas Onokea, for a statutory offense, was sentenced to six months imprisonment and costs; Joseph Francis, for opium smuggling, was given one month and costs, and Seki, for selling liquor at retail without a special government license, was fined \$200 and costs and given a 60-day sentence.

All petit jurors in federal court were excused this morning for the term.
